Re: BOI Registration of Irradiation Solutions Inc. for the Tanay  
Multipurpose Irradiation Facility Project

Gentlemen:

Please be advised that our subsidiary, Irradiation Solutions Inc. (ISI) has received notice from the Board of Investments (BOI) on the registration of Irradiation Solutions Inc. as New Operator of Essential Services for the Tanay Multipurpose Irradiation Facility Project.

As a BOI Registered Enterprise, ISI shall be eligible to the grant of certain fiscal and non-fiscal incentives under the provisions of R.A. 11534 or the Corporate Recovery and Tax Incentives for Enterprises Act and Executive Order No. 226 or the Omnibus Investments Code of 1987, as amended, provided that it shall be able to observe and abide by the provisions of said laws.

ISI is developing the Tanay Commercial E-Beam Facility. The project is envisioned to be the first Commercial E-Beam Facility to be built in the Philippines to provide services for the sterilization of medical masks, dressings, syringes and surgical staplers and other single-use medical devices. The facility will be also be able to provide commercial irradiation services to improve the quality of agricultural and fishery products. This will enable local products, fruits, and seafood to be of export quality and gain wider access to international markets. The E-Beam technology is used in more than 60 countries and is considered the most economical alternative among available commercial sterilization methods.

Thank you for your kind attention.

Very truly yours,

  
**ALLAN ACE R. MAGDALUYO**  
Compliance Officer
